The Department of Agriculture Field Offices and the Bureau of Plant Industry (BPI) shall be guided by the following policies/guidelines:

1. All seeds produced by the DA Centers, Stations and Seed Farms should undergo seed quality tests by the Seed Testing Laboratory of the BPI National Seed Quality Control Services. Germination and physical purity should not be less than 80% and 95%, respectively, while moisture content should not be more than 12% prior to sale and distribution.
2. All seeds still on stock at any DA Field Units shall be retested three months after the first test and monthly test thereafter for germination and moisture content. Only seed within the quality standards are eligible for sale/distribution.
3. Seeds and plant materials shall be sold in cash and carry basis.
4. Seeds that fall below the minimum quality standard and overgrown plant materials shall be disposed or shall be condemned according to COA Regulations.
5. Budstick for asexual propagation shall be sourced from NSIC registered and regularly indexed parent trees.
6. Standard bagging size of plastic bag is 7 x 11 inches for fruits, 6 x 8 inches for beverages and plantation crops, 7 x 14 inches for rubber and 5 x 7 inches for medicinal plants and other crops.

This order supersedes all other Administrative Order inconsistent herewith and takes effect immediately.
