

YEAR 2000 COMPLIANCE AWARENESS

MIA FLAG STATE ADMINISTRATION ADVISORY NO. 11, April 12, 1999

Read online (full-text search, related cases, audio case brief): <https://batas.org/library/1e4e911ade28/>

In accordance with the requirement of the Presidential Commission on Year 2000 Compliance of the Office of the President and the DOTC Y2K Readiness Monitoring Center, shipping companies/operators and all concerned are advised to assess millennium bug or Y2K problem within its jurisdiction, to ensure that all systems continue to operate without disruption into the next millennium, and to achieve the Year 2000 compliance of all systems before January 1, 2000.

The heavy reliance on technology makes the merchant fleet vulnerable to the Y2K problem. It is quite clear that the Y2K bug can affect navigation, communication, safety and security systems, alarms, control systems, ballasting and electrical system. Modern day ships carry with them hundreds of embedded chips that could produce erroneous date or cause failure of a critical function. One specific navigational and communication system is the Global Positioning System (GPS) which could be affected by the Y2K bug or End of the Week Rollover.

In view of this, all maritime related entities are advised on the following matters: a) to conduct an inventory and risk assessment of all their processing system, computer hardware and date sensitive equipment and develop action plans to address vulnerable systems; b) to verify from the manufacturers and suppliers whether their navigational devices, GPS satellites and other hardware and software devices will work properly through these events; and 3) to submit to the Office of the Administrator, MARINA a report on the progress of Y2K projects one (1) month after publication of this advisory.

Please be guided accordingly.

Adopted: 12 April 1999

(SGD.) AGUSTIN R. BENGZON

ABOUT BATAS.ORG

Study smarter at BATAS.org

The Philippine bar review and law-school companion built around how your brain actually remembers.

The complete Philippine law library - free for everyone.

More than 100,000 Supreme Court decisions, Republic Acts, and executive issuances - full-text searchable, browsable by category and year, and always free. No paywall, no login. This PDF came from it.

Audio case-brief lectures.

Any decision becomes a podcast-style lecture - facts, issues, ruling, and doctrine - with read-along highlighting and a hands-free presentation mode. Study while commuting, working out, or resting your eyes.

Bar review built on the science of memory.

Complete, sequenced courses for all eight bar subjects, narrated like podcasts and reinforced with retrieval practice and spaced review - the study techniques with the strongest evidence behind them.

The full law-school curriculum.

One subscription unlocks the entire J.D. curriculum - every subject, every lesson, with your progress tracked down to the paragraph so you can pick up exactly where you left off, on any device.

Mock exams that tell you where you stand.

Timed multiple-choice exams graded instantly, with per-subject score breakdowns and focus suggestions that point you at your weakest topics first.

A study planner that keeps you on pace.

Set your schedule and BATAS tells you every day whether you are on track for bar day - and exactly which lesson to take next.
