

APPROPRIATING FUNDS FOR PUBLIC WORKS, INVOLVING REHABILITATION AND CAPITAL DEVELOPMENT, SYNCHRONIZING THE SAME WITH PREVIOUS PUBLIC WORKS APPROPRIATIONS.

PRESIDENTIAL DECREE NO. 475, June 03, 1974

Read online (full-text search, related cases, audio case brief): <https://batas.org/library/2c446f214c2a/>

WHEREAS, Presidential Decree No. 3 provides appropriations primarily to rehabilitate and reconstruct damage infrastructure facilities caused by calamities that brought havoc in the country in 1972;

WHEREAS, hand in hand with rehabilitation and reconstruction, there is a need to implement additional development projects in order to further accelerate economic development;

WHEREAS, there is also a need to increase the appropriations of previously authorized projects to assure their completion, in view of increased construction costs brought about by circumstances beyond the control of the government;

WHEREAS, there is a need to provide adequate appropriations to cover the local counterpart funds of ongoing and proposed foreign-financed projects in view of our increasing capability to absorb foreign assistance as demonstrated by the various loans and aids extended to Government projects.

NOW, THEREFORE, I, FERDINAND E. MARCOS, President of the Philippines, by virtue of the powers in me vested by the Constitution and for sustained development of the economy, do hereby decree and order as follows:

SECTION 1. Capital Development Projects.—The following sums, or so much thereof as may be necessary, are hereby appropriated, out of the general funds in the National Treasury not otherwise appropriated, from the proceeds of bond issues and/or loans from local or foreign financial institutions, to implement projects pertaining to the program of capital improvements of the Administration, subject to the provisions hereinafter set forth, for the purpose mentioned hereunder.

TITLE A—Buildings

- For the construction, improvement, rehabilitation, reconstruction, completion, including project preparation and purchase of necessary materials and supplies, of the projects summarized hereunder:

(a) National and related buildings

1.

Philippine College of Arts and Trades Building, Manila

P 3,100,000

SPECIAL PROVISIONS

SEC. 4. Program of Work Required Before Prosecuting Public Works.—Before prosecuting any public works project, the district, city or project engineer concerned shall prepare a program of works for approval by the Department Head concerned for any project with an estimated cost of more than P500,000; by the Bureau Head concerned for any project with an estimated cost more than P200,000 but not more than P500,000; by the Regional Director concerned for any project with an estimated cost of more than P50,000 but not more than P200,000; and, by the District or City Engineer concerned for any project with an estimated cost of P50,000 or less. In no case shall construction funds be remitted to field offices or construction work on a project be started before the program of work is approved.

No program of work for any project which requires special site investigation, survey, and construction plans shall be approved unless such plans are used as basis of the program: Provided, That for project with an estimated cost of P100,000 or more the PERT/CPM technique shall be used and a time-scaled diagram of the activities as well as a monthly cash flow shall be made part of the program of work.

The program of work for any project shall not be amended except in case of unforeseen contingencies or any change in field conditions or other similar circumstances in which case an amendment may be allowed provided that such amendment will not result in the impairment of the expected accomplishment in excess of fifteen per centum thereof.

SEC. 5. Preliminary Studies.—In the implementation of the work, a general plan of operations shall be prepared to indicate the methods and procedures to be followed. This plan will cover and organize all relevant fields of study, delineation or responsibilities for undertaking each phase, specifying all analytical procedures and resources to be required for conducting the studies: Provided, That the appropriation shall include administrative services directly identified with the studies and purchase of equipment, materials and supplies.

SEC. 6. Rental of Equipment.—Rental of equipment shall not be deducted at the time of the release of funds for public works or even in anticipation of use of the equipment but shall be paid based on actual use when the appropriation so released is P25,000 or less. When the appropriation so released is above P25,000 and use of rented equipment is anticipated, then deduction for rental shall be made at the time of the release of funds but such deduction shall not exceed ten per centum of the released appropriation: Provided, That should the amount so deducted be in excess of actual rental, the balance of such deduction should be remitted immediately to the district or city engineering office concerned.

SEC. 7. Preference to Local Labor.—In the execution and construction of any public works project, the labor requirements shall be filled by laborers from the sitio, barrio, poblacion or municipality where the project is being undertaken. However, in case of skilled labor, it may be procured elsewhere within the province where the project is located; and in the case of specialized skilled labor, it may be procured outside the province where the project is located.

SEC. 8. Use of Private Consulting Service.—For any public works project with an estimated cost of P200,000 or more, the Secretary of Public Works, Transportation and Communications may hire the services of Filipino or associated Filipino and foreign consultants or consulting firms whenever available, for a fee not exceeding two

and one-half per centum of the estimated cost to review the project or plans and specifications devised by the bureau or office concerned, or for a fee not exceeding six per centum of the estimated cost to prepare the projects including plans and specifications thereof: Provided, That except for projects financed by loans from international lending institutions or projects financed in pursuance of bilateral agreements with foreign governments or their instrumentalities whose foreign consultants services are required, the participation of the Filipino consultants and/or implementing agency concerned in such, combined services shall be maximized.

SEC. 9. Prosecution of Public Works Projects by Administration.—The provisions of any law, rules or regulation to the contrary notwithstanding and irrespective of the source of funds, all public works projects with a cost of Two Hundred Thousand Pesos (P200,000) or less may be done by administration by the bureau or agency concerned without benefit of public bidding subject to the provision of Section seven, hereof. Public works projects with a cost of more than Two Hundred Thousand Pesos (P200, 000), shall, after public bidding, be awarded by contract. If there are no responsible bids for the project, or the bids are higher than the government estimate on the cost of the project, the project may be prosecuted by administration by the bureau or agency concerned after securing the approval of the Department Head. In case of urgent necessity or emergency, projects costing more than P200.000 may be prosecuted by administration without benefit of public bidding upon representation by the bureau or agency concerned, subject to favorable recommendation of the Department Head and approval by the President of the Philippines.

SEC. 10. Purchase of Sites.—Any appropriation herein authorized for construction of any project shall be understood to cover the acquisition or purchase of sites whenever such acquisition or purchase is necessary for the prosecution of the project.

SEC. 11. Purchase of Materials and Supplies.—The Department Head concerned is authorized, in the interest of public service, subject to bidding and auditing requirements, to procure the necessary materials and supplies, needed for the construction, reconstruction, improvement, repair and/or maintenance of any public works project, regardless of the source of funds: Provided, That when such materials and supplies are obtainable locally in the district, city or neighboring districts, the same may be procured by the District or City Engineer without prior authority from the Department Head: Provided, further, That, no surcharge shall be imposed for the service of procuring such materials and supplies: Provided, furthermore, That the cost of such materials and supplies shall not exceed the estimated cost of such materials and supplies stated in the approved program of work as provided under Section Four hereof.

SEC. 12. Engineering Surcharge and Other Overhead Expenses.—No national surcharge shall be collected from the appropriation or expenditures authorized for any category of public works and all surcharges to be collected by the District or City Engineering office for administrative, overhead and engineering expenses, including the compensation and travel expenses as provided in Section Nine hereof and all other deductions shall not exceed ten per centum of expenditures of appropriation for any public works projects, so that ninety per cent of said appropriation shall be expended directly for the project: Provided, That nine per cent of said expenditures shall accrue to the District or city engineering office and one per cent shall accrue to the regional engineering offices concerned: Provided, further, That such surcharges shall be under the custody of the disbursing officers of the said engineering offices: Provided, finally, That such surcharges may be used for the purchase of motor vehicles and equipment.

SEC. 13. Public Works Appropriations under this Decree, are National Disbursing Funds: Exceptions.—All funds appropriated under the provisions of this Decree shall, when released, be carried in the account books of the treasurers or special disbursing funds and all projects herein specified are classified as national projects: Provided, That provincial fund allocated as counterpart shall not be considered as national fund.

SEC. 14. Inter changeability of Financing Methods.—The President of the Philippines or his duly authorized representative may modify the financing methods indicated in this Decree and previous Public Works Acts and Decree, so as to enable the Department Head concerned to undertake the projects authorized to be financed either from general revenue, from proceeds from the sale of bonds, from loans, or from a combination of these sources of funds, and, with respect to the portworks projects under Presidential Decree No. 3, from Portworks Special Fund, and/or from any of the aforementioned sources or from a combination thereof.

SEC. 15. Other Financing Methods.—The provisions of existing laws, executive orders, rules and regulations to the contrary notwithstanding, the proceeds from the payment for reparations goods may be used for financing projects authorized in this Decree and any Public Works Act, including- the purchase of necessary equipment, construction materials and supplies.

SEC. 16. Reports.—The Department Head concerned shall submit an accomplishment report to the President. Such report shall include the appropriations released as of the date of said report and the percentage of work accomplished, further work to be done to complete the program of broad categories of public works and his recommendations if any, for transfer of appropriations or for program changes to be incorporated in the next Public Works Appropriations Measure.

SEC. 17. Effectivity.—This Decree shall take effect immediately.

Done in the City of Manila, this 3rd day of June, in the year of Our Lord, nineteen hundred and seventy-four.

(Sgd.)

FERDINAND E. MARCOS

President of the Philippines

ABOUT BATAS.ORG

Study smarter at BATAS.org

The Philippine bar review and law-school companion built around how your brain actually remembers.

The complete Philippine law library - free for everyone.

More than 100,000 Supreme Court decisions, Republic Acts, and executive issuances - full-text searchable, browsable by category and year, and always free. No paywall, no login. This PDF came from it.

Audio case-brief lectures.

Any decision becomes a podcast-style lecture - facts, issues, ruling, and doctrine - with read-along highlighting and a hands-free presentation mode. Study while commuting, working out, or resting your eyes.

Bar review built on the science of memory.

Complete, sequenced courses for all eight bar subjects, narrated like podcasts and reinforced with retrieval practice and spaced review - the study techniques with the strongest evidence behind them.

The full law-school curriculum.

One subscription unlocks the entire J.D. curriculum - every subject, every lesson, with your progress tracked down to the paragraph so you can pick up exactly where you left off, on any device.

Mock exams that tell you where you stand.

Timed multiple-choice exams graded instantly, with per-subject score breakdowns and focus suggestions that point you at your weakest topics first.

A study planner that keeps you on pace.

Set your schedule and BATAS tells you every day whether you are on track for bar day - and exactly which lesson to take next.
