The Board is heedful of the present economic state of every Filipino which is brought about by the continuous rise of oil prices in the world market. Although the impact thereof as slightly and temporarily deterred by the steady performance of the Peso - Dollar exchange rate, the eventual and uncontrollable effect on the prices of oil/fuel in the domestic market became evident and has resulted in an almost weekly price increase. Stic

As the Board recognizes the plight of every Filipino people in this time of crisis, it cannot thus be insensitive to the present clamor of stakeholders in public land transportation services for necessary action for fare rates. The Board proceeded to carefully balance the rights of the riding public who are mostly dependent on the public transport system vis-a-vis the right of grantees of Certificates of Public Convenience to a reasonable return of investment.
