For the purpose of considering appropriate legislation calculated to improve and ameliorate the physical and social conditions of the public school teachers and members of their families, a Committee is hereby created, composed of the following:

The Secretary of Education Chairman

The Secretary of Health Member

The Secretary of Finance Member

to study ways and means of affording to the public school teachers and members of their families the facilities of government hospitals, dental clinics, health centers and dispensaries in a manner that will enable them to receive, consistent with the limitations of the public treasury, free treatment therein and to send their children to public educational institutions without financial burdens on their part. The Committee shall also consider the possibility of tapping additional sources of public revenue that will make up for the outlay of funds to provide for the purposes herein contemplated.

The Committee shall submit its report as soon as practicable so that whatever measures it may recommend may be taken up for consideration during the next sessions of the Congress.

Done in the City of Manila, this 18th day of June, in the year of Our Lord, nineteen hundred and fifty-four, and of the Independence of the Philippines, the eighth.
