PLANA*, J.:

As a new and necessary industry, Industrial Textiles Manufacturing Company of the Philippines, Inc. (ITEMCOP) enjoyed full tax exemption in 1957 and 1958. In 1959, the tax exemption was reduced to 90%. The company thereby became partially subject to the payment of sales tax on the jute bags manufactured and sold by it.

In 1959, a local manufacturer of an essential item (such as jute bags) was subject to 7% sales tax on his gross sales, but to reduce his tax liability he could deduct the cost of raw materials from the gross sales, whether the raw materials be tax-paid or tax-free. The applicable law was Sec. 186-A of the Tax Code:

"Sec. 186-A. Whenever a tax-free product is utilized in the manufacture or production of any article, in the determination of the value of such finished article, the value of such tax-free product shall be deducted."
(Added by Sec. 5, Rep. Act No. 2025, effective June 22, 1957.)

In making its sales tax returns for 1959, ITEMCOP reported the sum of P10,395,208.25 as gross sales and deducted therefrom P4,764,391.44 representing the cost of raw materials used, to wit:

(1) raw materials imported in 1958 tax-free - - - - -

P 939,687.31

(2) raw materials imported or bought locally in 1959 - - - - -

P3,824,704.13

The Bureau of Internal Revenue disallowed the deduction of item (1) on the ground that under Section 186-A of the Tax Code, only the cost of tax-free raw materials locally bought from a new and necessary industry could be deducted from gross sales, for sales tax purposes. With respect to item (2), the Bureau ruled that the actual cost of the raw materials purchased and used by ITEMCOP in 1959 was P3,524,240.18 rather than P3,824,704.13 as computed by the taxpayer. On appeal, the Court of Tax Appeals sustained the Bureau with respect to item (1) but upheld the taxpayer as regards item (2). Hence, the instant petition for review.

Following the ruling in *Republic Flour Mills, Inc. vs. Commissioner of Internal Revenue*, 31 SCRA 520, we hold that the cost of raw materials imported tax-free in 1958 by ITEMCOP and used by it in the manufacture of jute

bags which were sold in 1959 is deductible from its 1959 gross sales for the purpose of determining its 1959 sales tax liability. Under the quoted Section 186-A of the Tax Code, it does not matter that the raw materials are imported and not locally bought from a tax-exempt industry.

With respect to the question as to what was the actual cost of the raw materials imported in 1959 by ITEMCO² and used by it in the manufacture of jute bags sold in the same year, for the purpose of determining its sales tax liability, suffice it to say that the issue is one of fact and the finding thereon of the CTA, not having been shown to be unsupported by substantial evidence, must be left undisturbed.

Accordingly, in G.R. No. L-27718, the appealed decision is modified by allowing the deduction from petitioner's 1959 gross sales of the cost of raw materials imported by it tax-free in 1958 and used in the manufacture of jute bags which were sold in 1959; and in G.R. No. L-27768, the petition is dismissed.

SO ORDERED.

Teehankee, (Chairman), Melencio-Herrera, Relova, Gutierrez, Jr., De la Fuente, and Alampay, JJ., concur.

[*] This resolution was penned by Justice Plana before he was on official leave on May 16, 1985 but reached the Office of the Chief Justice only on May 27, 1985.

ABOUT BATAS.ORG

Study smarter at BATAS.org

The Philippine bar review and law-school companion built around how your brain actually remembers.

The complete Philippine law library - free for everyone.

More than 100,000 Supreme Court decisions, Republic Acts, and executive issuances - full-text searchable, browsable by category and year, and always free. No paywall, no login. This PDF came from it.

Audio case-brief lectures.

Any decision becomes a podcast-style lecture - facts, issues, ruling, and doctrine - with read-along highlighting and a hands-free presentation mode. Study while commuting, working out, or resting your eyes.

Bar review built on the science of memory.

Complete, sequenced courses for all eight bar subjects, narrated like podcasts and reinforced with retrieval practice and spaced review - the study techniques with the strongest evidence behind them.

The full law-school curriculum.

One subscription unlocks the entire J.D. curriculum - every subject, every lesson, with your progress tracked down to the paragraph so you can pick up exactly where you left off, on any device.

Mock exams that tell you where you stand.

Timed multiple-choice exams graded instantly, with per-subject score breakdowns and focus suggestions that point you at your weakest topics first.

A study planner that keeps you on pace.

Set your schedule and BATAS tells you every day whether you are on track for bar day - and exactly which lesson to take next.
