ANNEX A

PROJECT DESCRIPTION

1. Purpose of Project

The purpose of this third project in the ASEAN-US Energy Cooperation Program is to foster policies which encourage both public and private sector adoption of energy efficient building design and maintenance; and to

enhance human and institutional resource development in energy management. The project aims to increase the efficiency of energy use and to improve the management of energy resources and technologies in the ASEAN region.

2. Description of Project

The project comprises two components that are of common interest to ASEAN member countries. These are: (1) energy conservation in buildings and (2) training in energy management.

2.1. Component 1 - Energy Conservation in Buildings.

The scope of the first component includes:

- (a) Regional training in building energy conservation techniques and economics;
- (b) Research on daylighting approach, design of buildings with natural ventilation, comfort analysis and building materials thermal characteristics;
- (c) Assessment and analysis of building energy use and technical/policy options and implementation and management of appropriate policies/standards.
- (d) Activities to disseminate information to both public and private sector organizations, i.e. seminars and workshops, preparation of technical manuals, publication of reports and newsletters, computer data base development, periodic technical ASEAN meetings, etc.

It is planned that grant resources under Component 1 will be provided directly by A.I.D. under a technical assistance agreement with the United States Department of Energy/Lawrence Berkeley Laboratory ("LBL"). This agreement will be prepared in consultation with the ASEAN Working Group on Non-Conventional Energy Research ("AWGNCR"). This extends and expands the successful LBL demonstration effort and investment with the Government of Singapore ("GOS") under the ASEAN Energy Cooperation in Development Project ("ASEAN Energy II").

LBL will assist the AWGNCR to develop annual workplans for Component 1. The GOS designee will coordinate the implementation of the workplans of this Component on behalf of ASEAN. The workplans will be the basis for the allocation, use and accounting of project resources, and will take into due consideration the document prepared by the AWGNCR at the Workplan Formulation Meeting held in Singapore on 25-26 March, 1985.

2.2. Component 2 - Training in Energy Management

The second component supports several activities to improve energy management. These include:

- (a) Training at the Asian Institute of Technology ("AIT") in energy planning and technology; provision of a long term energy management as well as to help coordinate/facilitate project training; and extension of support to AIT's Renewable Energy Resource Information Center ("RERIC");
- (b) Intensive regional training in energy planning and management is planned with a major course in Malaysia and follow-on specialized training for selected ASEAN participants. A subsequent regional workshop is planned to assess impact of these activities. AIT will coordinate and channel grant funds for these training activities in the region as guided by the AWGNCR.
- (c) Extension of the coal technology and management training provided under ASEAN Energy II. Special training activities will be developed in the U.S., including both formal and on-the-job training in the areas of coal use in electric power and industrial plants as well as coke production. A seminar is planned in the region subsequently to assess the impacts of training on the transfer of technology and the capability of the

participating countries to manage the development of coal resources. Training activities in energy planning and management will also be developed and implemented in the U.S.

It is planned that grant resources in the approximate amount of US\$770,000 will be provided to AIT for the provision/coordination of training and related activities summarized in paragraphs (a) and (b) above. This extends and expands the successful AIT effort initiated under the ASEAN Energy Activities Project ("ASEAN Energy I"). It is planned that coal technology training and U.S. energy management training in the approximate amount of US\$630,000 will be provided under technical agreement with the Institute for International Education ("IIE"). This extends the model mechanism used to provide U.S. coal training under the ASEAN Energy II.

3. Project Financial Plan.

The procurement of commodities and services to be financed in whole or in part by A.I.D. may (where so required by A.I.D. procedures) be undertaken only pursuant to Project Implementation Orders (PIOs) which shall, unless otherwise agreed by A.I.D., be issued unilaterally by A.I.D. with advice to the Cooperating Country.

F. Unless otherwise specified in the applicable PIO or Project Implementation Letter (PIL), the procurement of commodities imported specifically for the Project and financed with the A.I.D. contribution referred to in Item 3 of this Agreement shall be subject to the provisions of A.I.D. Regulation 1.

G. Unless otherwise agreed by the Parties or otherwise specified in the applicable P10, title to all property procured through financing by A.I.D. pursuant to Item 3 of this Agreement shall be in the Cooperating Country to which such property is provided, or such public or private agency as it may authorize.

H. (1) Any property furnished to a Party through financing by another Party pursuant to this Agreement shall, unless otherwise agreed by the Party which financed the procurement, be used effectively for the purposes of the Project in accordance with this Agreement, and upon completion of the Project, will be used so as to further the objectives sought in carrying out the Project. A Party shall offer to return to the other, or to reimburse the other for, any property which it obtains through financing by the other Party pursuant to this Agreement which is not used in accordance with the preceding sentence.

Each Party, in arranging for any disposition of any property procured through financing by the other Party under this Agreement/ shall assure that the rights of examination, inspection and audit described in the preceding sentence are reserved to the Party which did the financing.

M. A.I.D. and the Cooperating Country shall each furnish the other with such information as may be needed to determine the nature and scope of operations under this Agreement and to evaluate the effectiveness of such operations.

N. The present Agreement shall enter into force when signed. Either A.I.D. or the Grantee may terminate this Agreement by giving the other Party thirty (30) days written notice of intention to terminate it. Termination of this Agreement shall terminate any obligations of the Parties to make contributions pursuant to this Agreement, except for payments which they are committed to make pursuant to noncancellable commitments entered into with third parties prior to the termination of the Agreement. It is expressly understood that the obligations under paragraph H relating to the use of property or funds shall remain in force after such termination. In addition, upon such

termination A.I.D. may, at A.I.D's expense, direct that title to goods financed under the Grant be transferred to A.I.D. if the goods are from a source outside the Cooperating Country, are in a deliverable state and have not been offloaded in ports of entry of the Cooperating Country.

O. To assist in the implementation of the Project, A.I.D., from time to time, may issue PILs that will furnish additional information about matters stated in this Agreement. The Parties may also use jointly agreed upon PILs to confirm and record their mutual understanding on aspects of the implementation of this Agreement.

P. The Cooperating Country agrees, upon request, to execute an assignment to A.I.D. of any cause of action which may accrue to the Cooperating Country in connection with or arising out of the contractual performance or breach of performance by a party to a direct U.S. Dollar contract which A.I.D. financed in whole or in part out of funds granted by A.I.D. under this Agreement.
