

ENCODING OF THE MOTOR VEHICLE AND LICENSE DATA IN THE PROPER FIELD

Read online (full-text search, related cases, audio case brief): <https://batas.org/library/6e6b42089560/>

It has been observed that there are district offices/licensing centers that do not encode the proper data/entries for the "must" fields that should be included in the database, which is in violation of the Memorandum Circular No. RTL-MC-02374 dated January 10, 2002.

The must fields for MV registration process are the following:

- 1) MV Identification such as Engine No., Chassis No., MV File No., Plate Number;
- 2) MV Details includes: Type of Vehicle, Classification, Denomination, Make, Series, Body Type, Year Model, Color, Fuel, No. of Cylinder, Piston Displacement, Gross Weight, etc.;
- 3) Registration Details; and
- 4) Customer Details - Ownership, Contact Numbers, etc.

The new Motor Vehicle Inspection Report (MVIR) must be used as a cross reference of CR/CRE to ensure correctness of data. All fields in the Individual Information, Contact Information, Ownership and Documentation portions of the form must be properly filled up by the Customer. All fields in the Identification and Inspection portions of the form must be filled up by the MV Inspector. He shall be held liable for any incorrect data in the MVIR.

The Application for Driver's License (ADL) is the basis for the encoding process in the driver's license. All fields are must fields, hence, shall be filled up and properly encoded to capture the driver's license data.

In view hereof, it is hereby directed that Heads of District/Extension Offices and Licensing Centers shall see to it that all entries in the data fields are properly encoded or field up with the correct information before approving such transaction.

Non-compliance hereof shall subject the erring personnel to a suspension of not less than thirty (30) working days.

For strict compliance.

Adopted: 23 Aug. 2004

(SGD.) ANNELI R. LONTOC
Assistant Secretary

ABOUT BATAS.ORG

Study smarter at BATAS.org

The Philippine bar review and law-school companion built around how your brain actually remembers.

The complete Philippine law library - free for everyone.

More than 100,000 Supreme Court decisions, Republic Acts, and executive issuances - full-text searchable, browsable by category and year, and always free. No paywall, no login. This PDF came from it.

Audio case-brief lectures.

Any decision becomes a podcast-style lecture - facts, issues, ruling, and doctrine - with read-along highlighting and a hands-free presentation mode. Study while commuting, working out, or resting your eyes.

Bar review built on the science of memory.

Complete, sequenced courses for all eight bar subjects, narrated like podcasts and reinforced with retrieval practice and spaced review - the study techniques with the strongest evidence behind them.

The full law-school curriculum.

One subscription unlocks the entire J.D. curriculum - every subject, every lesson, with your progress tracked down to the paragraph so you can pick up exactly where you left off, on any device.

Mock exams that tell you where you stand.

Timed multiple-choice exams graded instantly, with per-subject score breakdowns and focus suggestions that point you at your weakest topics first.

A study planner that keeps you on pace.

Set your schedule and BATAS tells you every day whether you are on track for bar day - and exactly which lesson to take next.
