Be it enacted by the Senate and House of Representatives of the Philippines in Legislature assembled and by the authority of the same:

SECTION 1. Section one of Act Numbered Twenty-three hundred and forty-two, entitled "An Act regulating the labeling, sale, and advertising of patent and proprietary medicines, fraudulent therapeutic appliances and devices, and for the protection of the people of the Philippine Islands against the exploitation of such articles," is hereby amended to read as follows:

"SECTION 1. It shall hereafter be unlawful to import, sell or offer for sale any preparation, whether a simple substance or of compound substances, for the prevention, alleviation or cure of human ailments unless a qualitatively and quantitatively correct description of the principal drugs and toxic substances to which said preparation owes its action, expressed in the language, descriptions, and abbreviations used in the United States Pharmacopoeia or other accepted pharmacopoeias or formularies, appears plainly and legibly upon the bottle, label or package immediately containing the preparation, in such wise that it shall reach the purchaser at each and every purchase. If any non-official drug or substance be used in the preparation, it shall be plainly described under its ordinary name or customary chemical term, and not by any fancy or proprietary name. It shall be the duty of every importer and manufacturer of any of the preparations above mentioned to forthwith furnish the Bureau of Science with a specimen of the preparation as it is to be exhibited for sale, and immediately upon the receipt thereof, the Bureau of Science shall analyze such preparation. In case the analysis made by the Bureau of Science shows the statement of the principal drugs and toxic substances on the bottle, label, or package to be false, fraudulent or incorrect to the extent of its being liable to mislead and cause injury, it shall be the duty of the Director of Science to inform the manufacturer or importer of the result and it shall thereafter be unlawful to have possession of such preparation except for re-exportation within such period of time as the Director of Science may designate: Provided, That in case the manufacturer or his agent shall not accept the result of the analysis made by the Bureau of Science, the Director of Science shall appoint a technical board, composed of a physician and two duly qualified pharmacists, which shall verify the accuracy of the formula questioned and the decision of which shall be final and unappealable."

SEC. 2. This Act shall take effect on its approval.

Approved, March 9, 1917.

ABOUT BATAS.ORG

Study smarter at BATAS.org

The Philippine bar review and law-school companion built around how your brain actually remembers.

The complete Philippine law library - free for everyone.

More than 100,000 Supreme Court decisions, Republic Acts, and executive issuances - full-text searchable, browsable by category and year, and always free. No paywall, no login. This PDF came from it.

Audio case-brief lectures.

Any decision becomes a podcast-style lecture - facts, issues, ruling, and doctrine - with read-along highlighting and a hands-free presentation mode. Study while commuting, working out, or resting your eyes.

Bar review built on the science of memory.

Complete, sequenced courses for all eight bar subjects, narrated like podcasts and reinforced with retrieval practice and spaced review - the study techniques with the strongest evidence behind them.

The full law-school curriculum.

One subscription unlocks the entire J.D. curriculum - every subject, every lesson, with your progress tracked down to the paragraph so you can pick up exactly where you left off, on any device.

Mock exams that tell you where you stand.

Timed multiple-choice exams graded instantly, with per-subject score breakdowns and focus suggestions that point you at your weakest topics first.

A study planner that keeps you on pace.

Set your schedule and BATAS tells you every day whether you are on track for bar day - and exactly which lesson to take next.
