I. Rationale

Republic Act No. 9485, the Anti-Red Tape Act of 2007, was enacted to improve efficiency in the delivery of government services and to establish effective practices aimed at the prevention of graft and corruption in government. Government agencies and offices are mandated to promote transparency with regard to the manner of transacting with the public. Further, these measures shall encompass a program for the adoption of procedures to reduce red tape and expedite transactions in government. Section 5 of the same law states that all offices and agencies which provide frontline services shall undergo evaluation and improvement of their transaction systems and procedures and re-engineer the same if deemed necessary to reduce bureaucratic red tape and processing time.

Section 3 of Republic Act No. 9711, the Food and Drug Administration Act of 2009, has declared it “a policy of the State to adopt, support, establish, institutionalize, improve and maintain structures, processes, mechanisms and initiatives that are aimed, directed and designed to:” “help establish and maintain an effective health products regulatory system”. Section 5 of the same law amending Section 4 of Republic Act No. 3720 provided the FDA with the authority “to prescribe standards, guidelines, and regulations with respect to information, advertisements, and other marketing instruments and promotion, sponsorship, and other marketing activities about the health products as covered in this Act;”.

II. Objectives

With the intention of promoting accountability and transparency through greater use of information and communication technologies, the Integrated Application Form is hereby adopted to simplify and streamline the requirements for FDA authorization, and the application process dependent on the same form is prescribed.

III. Scope

This issuance shall cover FDA-regulated products and establishments under the Center for Drug Regulation and Research (CDRR), Center for Food Regulation and Research (CFRR) and the Center for Cosmetic Regulation and Research (CCRR).

The following authorizations are served by the Integrated Application Form:

1)

License to Operate, including initial, renewal, compliance, and amendments;

2)

Certificate of Product Registration, including initial, renewal, amendments, re-application, Principal CPR, and Certificate of Listing of Identical Drug Product;

3)

Promo and Advertisement Permits;

4)

Certificate of Free Sale;

5)

Export Certificate;

6)

Certificate of Pharmaceutical Product;

7)

Generic Labeling Exemption;

8)

Certificate of Compliance with Good Manufacturing Practice (GMP);

9)

Certificate of Compliance with Hazard Analysis and Critical Control Points (HACCP);

IV. Guidelines
