Be it enacted by the Senate and House of Representatives of the Philippines in Congress assembled:

SECTION 1. There is hereby established a ceramic processing plant in the Municipality of Tiwi, Province of Albay, under the supervision of the Commissioner of the National Institute of Science and Technology, to be known as Tiwi Ceramic Processing Plant.

SEC. 2. The ceramic processing plant shall have the following functions;

- Study the efficient utilization of ceramic raw materials of the locality;
- Process and compound whatever clay or other ceramic raw materials may be found in the locality for sale to potters at cost;
- Mix ceramic materials for glaze to be sold at cost to potters;
- Construct a community kiln for use of local potters at nominal cost;
- Teach, guide and demonstrate to local potters the making of different kinds of ceramic products such as structural hollow clay blocks, building bricks, tiles, and household potter wares like flower vases, art wares, containers, dinnerwares, drinking vessels, insulators, etc; and
- Conduct such researches or studies as may be necessary for the efficient and effective functioning of the plant.

SEC. 3. The ceramic processing plant shall have a chief who shall be known as the Chief Ceramic Technologist and such other personnel as may be necessary. They shall be appointed by the Chairman of the National Science Development Board, upon recommendation of the Commissioner of the National Institute of Science and Technology and subject to the approval of the said Board. The Chief Ceramic Technician shall be responsible for the effective operation of the ceramic processing plant. He shall be under the operational direction and supervision of the Commissioner of the National Institute of Science and Technology.

SEC. 4. Persons desiring to be trained in ceramics at the Ceramics Unit of the Industrial Research Center, National Institute of Science and Technology, shall apply to the head of the Ceramic Processing Plant and upon approval of their application by the Commissioner of the National Institute of Science and Technology, shall be given a daily allowance not exceeding five pesos for a period not exceeding three months and transportation expenses from and to their province. The number of trainees and their qualifications shall be determined by the Commissioner of said Institute.

SEC. 5. The proceeds from the sale of products and/or materials as well as the fees collected for services rendered by the ceramic processing plant and the unexpended balance of its annual appropriation shall be used as a revolving fund for the operation of the plant, improvement of the products, and other studies connected with the

project.

SEC. 6. Should the plant be sold to a private individual or corporation, the proceeds shall be employed for the establishment of similar plants in other regions to be determined by the Commissioner of the National Institute of Science and Technology with the approval of the Chairman of the National Science Development Board.

SEC. 7. To carry out the purpose of this Act including the purchase of land, equipment, materials, supplies and the construction of buildings and shops in connection with the work, there is hereby authorized to be appropriated out of any funds in the National Treasury not otherwise appropriated, the sum of two hundred fifty thousand pesos for the fiscal year nineteen hundred seventy-one; Provided, That of this sum, the amount of one hundred thousand pesos shall be used for the purchase of the site. Such amounts as may be necessary for the operating expenses of the plant in succeeding fiscal years shall be included in the annual General Appropriations Act.

SEC. 8. This Act shall take effect upon its approval.

Approved, June 19, 1971.

ABOUT BATAS.ORG

Study smarter at BATAS.org

The Philippine bar review and law-school companion built around how your brain actually remembers.

The complete Philippine law library - free for everyone.

More than 100,000 Supreme Court decisions, Republic Acts, and executive issuances - full-text searchable, browsable by category and year, and always free. No paywall, no login. This PDF came from it.

Audio case-brief lectures.

Any decision becomes a podcast-style lecture - facts, issues, ruling, and doctrine - with read-along highlighting and a hands-free presentation mode. Study while commuting, working out, or resting your eyes.

Bar review built on the science of memory.

Complete, sequenced courses for all eight bar subjects, narrated like podcasts and reinforced with retrieval practice and spaced review - the study techniques with the strongest evidence behind them.

The full law-school curriculum.

One subscription unlocks the entire J.D. curriculum - every subject, every lesson, with your progress tracked down to the paragraph so you can pick up exactly where you left off, on any device.

Mock exams that tell you where you stand.

Timed multiple-choice exams graded instantly, with per-subject score breakdowns and focus suggestions that point you at your weakest topics first.

A study planner that keeps you on pace.

Set your schedule and BATAS tells you every day whether you are on track for bar day - and exactly which lesson to take next.
