

UNIFORM COMPUTATION OF THE PENALTY FOR AXLE OVERLOADING

LTO MEMORANDUM CIRCULAR NO. ACL-2009-1192, July 03, 2009

Read online (full-text search, related cases, audio case brief): <https://batas.org/library/ba8aaf5018c9/>

In order to adopt a uniform interpretation on the provision for axle overloading pursuant to, Item D, No. 56 of Department Order No. 2008-39 (Revised Schedule of LTO Fines and Penalties for Traffic and Administrative Violations) and to further implement a common computation in the determination of the imposable fine in line with the recommendation of the Commission on Audit contained in its Annual Audit Report for CY 2008, the following guidelines shall be strictly observed:

1. The amount of fine imposed upon the owner/operator or driver shall be equivalent to 25% of the MVUC paid at the time of infringement as indicated in the Official Receipt (OR);
2. The 4.99% tolerance shall be computed based on the GVW as indicated in the current Certificate of Registration (CR);
3. The penalty can be waived for loads exceeding the registered GVW by a tolerance of 4.99%. This is without prejudice to upholding the findings of overloading based on the actual random roadside weighing provided the excess is within the 4.99% tolerance;
4. The excess load shall be computed after adding the 4.99% tolerance to the registered GVW and deducted from the actual weight at the time of apprehension;
5. The 4.99% tolerance shall not apply to excess axle load or beyond the allowable 13,500 kgs./axle. Hence, the penalty of 25% of the MVUC shall be imposed if any of the axle load exceeds 13,500 kgs. during the actual weighing.

In computing the penalty for exceeding the registered GVW and authorized axle load, the following formula shall apply:

A. Determination of Allowed Gross Vehicle Weight:

In kgs.

Allowed GVW per Sec. 6(b) of the IRR of RA 8794 x x x

Add: Tolerance of 4.99% (less than 5%) x x x

Total allowed GVW x x x

Less: Actual Weight at time of Apprehension x x x

Excess Weight (Violation) x x x

Amount of MVUC paid per current Official Receipt x x x

Multiply by 25% = amount of Fine x x x

In kgs.

B. Determination of Allowed Axle Load (Violation in any of the axle)

Excess Axle Load

Axle 1 x x x

Axle 2 x x x

Axle 3 x x x

Amount of the MVUC per current Official Receipt x x x

Multiply by 25% = Amount of Fine x x x

As an accessory penalty, no motor vehicle shall be allowed to proceed on the road-way if either a dual-wheel axle load shall exceed 13,500 kilograms or the vehicle load exceeds 150% of the maximum allowable gross weight.

For your guidance and strict compliance.

Adopted: 03 July 2009

(SGD.) ARTURO C. LOMIBAO

Assistant Secretary

ABOUT BATAS.ORG

Study smarter at BATAS.org

The Philippine bar review and law-school companion built around how your brain actually remembers.

The complete Philippine law library - free for everyone.

More than 100,000 Supreme Court decisions, Republic Acts, and executive issuances - full-text searchable, browsable by category and year, and always free. No paywall, no login. This PDF came from it.

Audio case-brief lectures.

Any decision becomes a podcast-style lecture - facts, issues, ruling, and doctrine - with read-along highlighting and a hands-free presentation mode. Study while commuting, working out, or resting your eyes.

Bar review built on the science of memory.

Complete, sequenced courses for all eight bar subjects, narrated like podcasts and reinforced with retrieval practice and spaced review - the study techniques with the strongest evidence behind them.

The full law-school curriculum.

One subscription unlocks the entire J.D. curriculum - every subject, every lesson, with your progress tracked down to the paragraph so you can pick up exactly where you left off, on any device.

Mock exams that tell you where you stand.

Timed multiple-choice exams graded instantly, with per-subject score breakdowns and focus suggestions that point you at your weakest topics first.

A study planner that keeps you on pace.

Set your schedule and BATAS tells you every day whether you are on track for bar day - and exactly which lesson to take next.
