

USAGE OF SEEDLING CONTAINERS OR RECEPTACLES MADE FROM INDIGENOUS ORGANIC MATERIALS

DA ADMINISTRATIVE ORDER NO. 43, S. 2000, October 20, 2000

Read online (full-text search, related cases, audio case brief): <https://batas.org/library/c4d82b8e727e/>

Consistent with the policy of the Department to improve and modernize the production and dispersal of planting materials to individual farmers or their duly accredited or recognized groups or associations, the Department shall, henceforth, encourage the use of containers or receptacles for plantable seedlings made from indigenous organic materials like coconut husk, coconut coir, coco peat, or other plant fibers.

Aside from the natural nutrients found in organic containers and their ability to absorb moisture and facilitate the growth of the plant's root system, the seedlings contained in these organic containers can be planted without removing the organic container, thus, reducing stress on the planting material or seedling.

Using organic container or receptacle for planting materials, avoid the use of seedling bags like plastic bags or "polybags" which are non-biodegradable materials that can harm the environment.

Therefore, in order to promote the use of indigenous organic materials as containers or receptacles for planting materials and thereby protect our environment, all agencies and offices of the Department, including its attached agencies involved in seedling acquisition and distribution shall encourage the use of biodegradable organic seedling containers or receptacles.

Accordingly, the Department shall give priority or preference to plantable seedlings and other planting materials contained in biodegradable organic receptacles or containers being offered to the Department, its offices and attached agencies for sale by accredited nurseries.

This Order shall take effect immediately.

Adopted: 20 Oct. 2000

(SGD.) EDGARDO J. ANGARA
Secretary

ABOUT BATAS.ORG

Study smarter at BATAS.org

The Philippine bar review and law-school companion built around how your brain actually remembers.

The complete Philippine law library - free for everyone.

More than 100,000 Supreme Court decisions, Republic Acts, and executive issuances - full-text searchable, browsable by category and year, and always free. No paywall, no login. This PDF came from it.

Audio case-brief lectures.

Any decision becomes a podcast-style lecture - facts, issues, ruling, and doctrine - with read-along highlighting and a hands-free presentation mode. Study while commuting, working out, or resting your eyes.

Bar review built on the science of memory.

Complete, sequenced courses for all eight bar subjects, narrated like podcasts and reinforced with retrieval practice and spaced review - the study techniques with the strongest evidence behind them.

The full law-school curriculum.

One subscription unlocks the entire J.D. curriculum - every subject, every lesson, with your progress tracked down to the paragraph so you can pick up exactly where you left off, on any device.

Mock exams that tell you where you stand.

Timed multiple-choice exams graded instantly, with per-subject score breakdowns and focus suggestions that point you at your weakest topics first.

A study planner that keeps you on pace.

Set your schedule and BATAS tells you every day whether you are on track for bar day - and exactly which lesson to take next.
