DIRECT CHARGES.

For direct operating charges, including superintendence, labor, materials, and all other items properly entering into the direct cost of authorized projects undertaken by the Bureau of Public Works, not to exceed four million pesos: Provided, That the total herein appropriated for administrative expenses and direct charges shall be offset by the automatic reversion to the general unappropriated surplus of all income and receipts of whatever nature

resulting from the correct allocation of costs to each project: Provided, however, That when the services of the Bureau of Public Works in connection with any provincial or municipal project are purely administrative or supervisory, the charges for said services shall be computed upon the basis of not to exceed three per centum of the total cost of said project: And provided further, That in case the amount thus derived is insufficient to cover the cost of said services, the difference shall be borne by the appropriation for the Bureau of Public Works.

MISCELLANEOUS.

All Insular and provincial public works projects shall be carried out under the supervision of the Bureau of Public Works unless otherwise directed by the Secretary of Commerce and Police.

Officers and employees of the Bureau of Public Works assigned to duty outside of the city of Manila who have heretofore been entitled to quarters and subsistence may, during a period of such assignment, be allowed quarters in kind and subsistence, in accordance with the following schedule; those receiving a salary of less than one thousand eight hundred pesos per annum under temporary appointment, thirty pesos per month, those receiving a salary of one thousand eight hundred pesos or more per annum under regular appointment, one peso and eighty-three centavos per day; those receiving a salary of one thousand eight hundred pesos or more per annum under temporary appointment, sixty pesos per month.

Employees of the Bureau of Public Works shall be entitled to medicines and medical attendance while engaged on any authorized public works at places where usual medical attendance is not accessible and the Director of Public Works may, subject to the approval of the Secretary of Commerce and Police, appoint such physicians at fixed monthly salaries as may be, in his judgment, for the best interest of the service, when such medical attendance and supplies cannot be furnished by the Bureau of Health or the Bureau of Constabulary.

The subsistence and traveling expenses of district engineers assigned to provinces and projects, as well as medicine and medical attendance for such personnel, supplying them with suitable office quarters, office furniture, supplies and other local office expenses, shall be paid from the funds available for authorized work within the province, under accounting regulations to be prescribed by the Insular Auditor.
